

2015-16

Associated Respiratory Holdings (ARH) Studentship Research Recipients

Vivek Gandhi - \$11,500

Location of Study: University of Alberta

Project title: Regulation of Proteinase-Activated Receptor-2 Airway Epithelium in Asthma

Kyla Jamieson- \$11,500

Location of Study: University of Calgary

Project title: The Effects of Combined Bacterial and Rhinovirus Exposure on Human Bronchial Epithelial Proinflammatory and Host Defense Responses

Mahmoud Mostafa - \$11,500

Location of Study: University of Calgary

Project title: Functional analysis of glucocorticoid-induced transcription factors in human airway epithelial cells

Kurtis Ng- \$11,500

Location of Study: University of Alberta

Project title: Cooperation of Human Mast Cells and Airway Epithelial Cells in Defense against Influenza A Virus

Diana Pham - \$11,500

Location of Study: University of Alberta

Project title: Carotid Chemoreceptor control of cardiovascular function and ventilation at rest and during exercise in COPD

Research Health Strategic Clinical Network (RHSCN) Studentship Awards

Meghan Dueck - \$11,500

Location of Study: University of Alberta

Project Title: Application of Metabolomics Analysis to Biomarker Discovery for Respired Welding Fumes in Apprentice Welders

Omar Hamed- \$11,500

Location of Study: University of Calgary

Project title: Induction of Rgs2: a novel mechanism to explain the efficacy of phosphodiesterase 4 inhibitors of COPD
