

2016-17

Associated Respiratory Holdings (ARH) Studentship Research Recipients

Cameron Griffiths - \$11,500

Location of Study: University of Alberta

Project Title: Interactions between the Respiratory Syncytial Virus Fusion Protein and Cell Surface Nucleolin during Viral Entry

Kyla Jamieson- \$11,500

Location of Study: University of Calgary

Project Title: Airway Epithelial Production of IL-17C Following Bacteria and Rhinovirus Co-exposure

Michelle Love - \$11,500

Location of Study: University of Calgary

Project Title: Investigating the effects of cigarette smoke on innate antiviral responses to human rhinovirus

Mahmoud Mostafa - \$11,500

Location of Study: University of Calgary

Project Title: Functional analysis of glucocorticoid-induced transcriptional regulators in human airways

Diana Pham - \$11,500

Location of Study: University of Calgary

Project Title: The Role of Human Rhinovirus Infections in the Pathogenesis of Airway Remodelling in Asthma

Research Health Strategic Clinical Network (RHSCN) Studentship Award

Khusraw Jamil- \$11,500

Location of Study: University of Calgary

Project Title: Evasion and subversion of dendritic cell immunity by Cryptococcus Gattii
