

2018-19

Associated Respiratory Holdings (ARH) Studentship Research Recipients

Nawell Fayad- \$12,500

Location of Study: University of Alberta

Project Title: Cytokine Secretion Pathways in Pro-Inflammatory Cytokine Release from Neutrophils

Omar Hamed- \$12,500

Location of Study: University of Calgary

Project Title: Signalling Mechanisms responsible for B-2-Adrenoceptor-mediated adverse events in Asthma

Aubrey Michi- \$12,500

Location of Study: University of Calgary

Project Title: Rhinovirus C alters Cellular architecture of highly differentiated airway epithelial cells

Chinwe Obiakor- \$12,500

Location of Study: University of Alberta

Project Title: Cumulative exposure to anti-microbial agents and Clostrideiodes difficile colonization of the infant gut microbiota

Conor Ruzycski- \$12,500

Location of Study: University of Alberta

Project Title: Characterizing Lung Dose and Tracheobronchial Deposition of Methacholine Aerosols for Bronchial Challenge Testing

Research Health Strategic Clinical Network (RHSCN) Studentship Awards

Robyn Wells- \$12,500

Location of Study: University of Calgary

Project Title: Interventional study of expiratory muscle strength training as a treatment in oculopharyngeal muscular dystrophy

Lung Association Funded

Nancy Bedingfield- \$12,500

Location of Study: University of Calgary

Project Title: Improving Infectious Tuberculosis Education and Counselling in Calgary for Patients who are Foreign born and their Families.
